

# DISORIENTATION

TASK: 08  
SECTOR: M21

SOLUTION  
CRANEA USE ONLY

THE FIRST TWO IMAGES CONTAIN CROSSWORD CLUES WITH SIX-LETTER ANSWERS; EACH CLUE ANSWER ON THE LEFT IS AN ANAGRAM OF A CLUE ANSWER ON THE RIGHT. THESE ANAGRAM PAIRS CREATE THE "CODE" WITH WHICH TO UNSCRAMBLE THE TEXT BLOCK IN THE PASSWORD PROMPT (CHANGING THE ORDER OF LETTERS IN THE APPROPRIATE ROW IN THE BLOCK USING THE SAME PERMUTATION AS NEEDED TO CONVERT THE CORRESPONDING LEFT ANSWER → RIGHT ANSWER). THE DECODED TEXT READS DOWN THE COLUMNS, PROMPTING THE ANSWER "GOOSE" (IF TEAMS ANSWER "GEESE," TELL THEM THEY ARE CLOSE AND TO READ THE PLAINTEXT AGAIN)
